

SAVE MANATEE COUNTY FROM DEVELOPER-CONTROLLED CANDIDATES

Bought-and-paid “Republican” candidates will say *anything* to get your vote. They claim to be MAGA and Conservative. They say they are endorsed by DeSantis and connected to Trump. They promise to STOP BIDEN’s INVASION. One even claims to be a good cop.

Don’t be fooled by glossy postcards, tv ads, texts, and emails talking about national issues. **Look for Republicans who address our LOCAL problems:**

- the beach parking garage that **removes free parking**
- the dissolution of the island cities so **developers can transform our pristine beaches**
- the disregard for **wetland buffers, flooding, and water pollution**
- restricting citizens from **calling in for public comments or commenting on county social media pages**
- the move to **build a Tent City in Manatee County** with an NGO that is facilitating the invasion at the border

Manatee County is suffering because candidates are chosen by developers, funded with massive amounts of money to send out marketing to “buy” your vote.

It continues because only **25% of registered Republicans show up to vote in the August primary!**

This guide shows the candidates who are NOT “bought and paid for.” Candidates who refused to use the developers’ dirty political consultant (who is sending all the trashy mailers and political ads).

Please show up to the **PRIMARY election on August 20** and choose **Republicans of the PEOPLE, not PUPPETS of the developers.**

VOTE on August 20, 2024 and SAVE MANATEE COUNTY from developer controlled candidates.
